ZAROLAT'S DEBUT AT THE SALON ART + DESIGN

ZAROLAT is pleased to announce its debut appearance at the 13th edition of Salon Art + Design, held at the iconic Park Avenue Armory from November 7-11.

Just months after opening our Dumbo storefront, we are honored to represent our collective at the most prestigious design event of the city. Salon Art + Design showcases the pinnacle of design, presenting the world's finest vintage, modern and contemporary pieces alongside blue-chip 20th-century artworks, represented by leading galleries from all around the world.

At ZAROLAT, each piece is carefully selected as creations of artistry and skillful manufacturing methods, questioning the nature of materiality and its boundaries. Utilizing the physical qualities of spaces, each curation we orchestrate offers a unique experience by not only highlighting the individual objects, but also by creating a holistic dialogue among the pieces, challenging the ordinary ways of viewing art. For Salon, our booth D19 will use this method to showcase an exclusive collection of work, brought to life by the interdisciplinary creatives of our vibrant community.

The featured artists include Giulia Archimede - a Florence-based product designer working with light, Aimee Sy - a Filipino visual artist who melds functionality with artistry in the making of her objects, Maja Dlugolecki - an LA-based painter of intuitively bold pieces, Edoardo Cozzani - a New York-based photographer who works with extraordinary materials to create abstract sculptures, Berk Ilhan+Adem Önalán - product designers from Istanbul who bend our perception of natural materials, and Robert Thiele - an established artist in our local community of Dumbo. Our booth will also present ZAROLAT's own collection of furniture including Luna Chair, Henry Table and Carmen Chair.

Our home at 140 Plymouth is a crossroad for the local community of Brooklyn and all artists, designers, architects and makers to meet, exchange ideas and collaborate. With each interaction, we are growing our creative community and establishing ourselves at the heart of Dumbo's design district.

ZAROLAT is an architecture studio and an art+design gallery representing a community of artists, designers, architects and makers. It is a creative that celebrates skillful design and artisanship. Zarolat Studio has been working as an independent architecture studio creating buildings, interiors and furniture since 2018.
